(Print Name)

(Signature)

Medical Information

Physician Name:

Phone #:

Height:

(cm/in)

Weight:

(kg/lb)

Surgical History: Knee Hip Shoulder Spine / other joint specific

Hysterectomy Prostatectomy Other Major Surgery (please specify): _____

Do you have any implantable devices (e.g pacemaker or implantable defibrillator)? Yes No

Please specify: _____

Additional health information including illnesses, surgeries or accidents: _____

I have informed the following person(s) of my wish to donate my body (please indicate the relationship of each person):

1.

(Name)

(Relationship to Donor)

2.

(Name)

(Relationship to Donor)

I have read and understand the UBC Body Donation pamphlet including the section on the Body Donation Program, the Body Donation Process and the frequently asked questions section provided to me by the Faculty of Medicine at UBC.

I understand that my consent for body donation includes consent for tissue sampling, serology testing and medical imaging of anatomical material for educational, research and/or scientific purposes.

I understand that accepted donations will remain under the care of the University for a period of six (6) months to three years and that I have the option, if indicated below, to make an indefinite donation.

I give permission to the University to retain a portion of my body **indefinitely** if it is required for educational and/or scientific purposes.

Yes No

I understand the University will ensure anonymity, confidentiality and dignity in its use of my donated body. After the use, the University will arrange for cremation and will contact my executor or next-of-kin to carry out disposition of remains. **All** donors must appoint an executor or next-of-kin to carry out disposition of the cremated remains. The name of the executor or next-of-kin is:

Name:

Relationship to Donor:

This section must be completed by your spouse, next-of-kin or registered partner.

1. I have read and understand the UBC Body Donation pamphlet including the section on the Body Donation Program, the Body Donation Process and the frequently asked questions section provided to me by the Faculty of Medicine at UBC.
2. A donated body may be tested for Hepatitis B, Hepatitis C, and HIV upon receipt in the Program. The results of these tests will not be disclosed to the donor's designated executor but may be reported to the BC Provincial Health Officer.
3. The donated remains may be preserved by the program or may be used in an unembalmed state.
4. The donated remains may be dissected, examined, studied, and/or preserved for an extended period of time and may be used for more than one purpose.
5. Parts of the body such as organs or limbs may be removed and separated from the whole body. Bodily fluids and tissues may be analyzed and destroyed.
6. Anonymous images and videos of donated anatomical material may be used for online restricted access and open access education and research purposes.
7. When making a donation, donors, survivors, executors and/or responsible parties cannot designate the uses to which the body will be put.
8. If the donor is located outside of the Greater Vancouver Regional District (GVRD) the executor or estate of the donor is responsible for the transportation charges to the GVRD.
9. The University of British Columbia reserves the right to decide whether or not to proceed with the donation of the body.

I have read and fully understand the policies set forth in this document as the legally responsible partner under this section for _____ (name of donor).
