

Lecturer, Part Time | Department of Cellular & Physiological Sciences

The Department of Cellular & Physiological Sciences at The University of British Columbia (UBC) invites applications for a faculty position at the rank of Lecturer, Part Time (0.5 FTE). This appointment is for one year with the possibility of extension.

For more than fifty years, the Department of Cellular & Physiological Sciences has played an active and important role at UBC and in the greater scientific community. The department offers a number of undergraduate courses and laboratory courses for third and fourth year honours program.

The successful candidate will report to the Head of the Department of Cellular & Physiological Sciences. The main responsibilities will include:

- Preparing and developing course material and teaching.
- Coordinate with other faculty members in developing and delivering new undergraduate labs.
- May be invited to join the Teaching Committee.
- Additional teaching and administrative responsibilities as required by the program and the department.

The successful candidate will hold a PhD or equivalent and should have excellent communication skills, a track record of excellence in teaching, commitment to innovative teaching methods and curriculum development. Previous teaching experience is required. A demonstrated evidence of ability and commitment to teaching is essential. Experience with PowerLab teaching units from ADInstruments, and its associated software, is an asset.

Salary will be commensurate with qualifications and experience. A letter of application outlining the applicant's research and teaching interests, accompanied by a detailed curriculum vitae and the names of three references should be directed to:

**Dr. Edwin D.W. Moore, Ph.D.**

Head

Department of Cellular & Physiological Sciences, UBC

Email: [edwin.moore@ubc.ca](mailto:edwin.moore@ubc.ca)

The anticipated start date for this position is October 1, 2019 or upon a date to be mutually agreed.

The University of British Columbia is a global centre for research and teaching, consistently ranked among the top 20 public universities in the world and 3<sup>rd</sup> largest university in Canada with an economic impact of 12.5 billion to the provincial economy. Since 1915, UBC's West Coast spirit has embraced innovation and challenged the status quo. Its entrepreneurial perspective encourages students, staff and faculty to challenge convention, lead discovery and explore new ways of learning. At UBC, bold thinking is given a place to develop into ideas that can change the world. As one of the world's leading universities, The University of British Columbia creates an exceptional learning environment that fosters global citizenship, advances a civil and sustainable society, and supports outstanding research to serve the people of British Columbia, Canada and the world.

*Equity and diversity are essential to academic excellence. An open and diverse community fosters the inclusion of voices that have been underrepresented or discouraged. We encourage applications from members of groups that have been marginalized on any grounds enumerated under the B.C. Human Rights Code, including sex, sexual orientation, gender identity or expression, racialization, disability, political belief, religion, marital or family status, age, and/or status as a First Nation, Metis, Inuit, or Indigenous person. All qualified candidates are encouraged to apply; however Canadians and permanent residents of Canada will be given priority.*
